PCI DSS General Consulting

SecureTrust™ is a division of Trustwave Holdings, Inc.

SERVICE DESCRIPTION

SecureTrust's Payment Card Industry Data Security Standard (PCI DSS) General Consulting is a professional services engagement. PCI DSS General Consulting is designed to assist and guide organizations in achieving and maintaining compliance with the PCI DSS.

BASE SERVICE FEATURES

SecureTrust's PCI DSS General Consulting includes the following standard features:

SecureTrust Portal

The SecureTrust Portal consists of, among other features, a Compliance Manager application to manage the engagement process as well as collect and securely store evidence, documentation, and final deliverables.

Global Compliance & Risk Services

The Global Compliance and Risk Services (GCRS) team consists of, among others, the following key personnel and functions:

Qualified Security Assessor (QSA) – An information security consultant and QSA is the primary resource for the fulfillment of the service and is responsible for scheduling and conducting consulting activities.

Managing Consultant (MC) – An MC provides guidance, project oversight and reporting quality assurance to the QSA and serves as a secondary point of contact for escalations and queries.

SecureTrust Compliance Review Board (CRB) – The CRB serves as an escalation point for requirement interpretation or complicated compliance questions, providing consistency and continuity across SecureTrust assessments. The CRB is the final point of escalation for issue resolution regarding compliance status against requirement interpretation or the review of a compensating control.

PCI DSS General Consulting – Consulting and guidance for achieving and maintaining compliance with the PCI DSS. SecureTrust will provide consulting services to assist and guide Client in review and examination of compliance solutions, policy, processes and documentation for Client's PCI DSS compliance management programs. The security consultant will maintain a strong balance of business acumen and technology knowledge, as well as considerable depth in information risk, security, and compliance management.

DELIVERY AND IMPLEMENTATION

Project Initiation

The SecureTrust GCRS team is assigned to facilitate delivery of the service which includes scheduling and conducting the remote kickoff meeting to define and agree to a high-level project plan consisting of milestone dates, key steps, estimates for duration, resource requirements and escalation procedures.

Phase I: Consulting Engagement

SecureTrust's information security consultant will work with Client to help review and examine requirements to achieve and maintain compliance with the PCI DSS. PCI DSS General Consulting activities may include, but are not limited to the following:

- Help Client understand PCI DSS compliance requirements;
- Prepare and coach Client;
- Advise Client in preparation of the cardholder data environment;
- Review and provide guidance for PCI DSS scoping documentation;
- Review and provide guidance for the design and implementation of PCI DSS security controls;
- Advise Client of any compliance gaps identified;
- Help Client prioritize remediation actions to achieve and maintain PCI DSS compliance; and
- Provide recommendations for remediation of PCI DSS compliance issues.

SecureTrust will conduct a closeout meeting with Client, if desired.

SECURETRUST RESPONSIBILITIES

- Establish and maintain contact with Client.
- Establish communication and escalation plans.
- Create a Client account in the SecureTrust Portal.
- Define high-level project plan consisting of milestone dates, key steps, estimates for duration and resource requirements.
- Schedule and conduct kickoff, periodic status and closeout meetings.

CLIENT RESPONSIBILITIES

- Establish and maintain contact with SecureTrust.
- Establish communication and escalation plans.
- Agree to high-level project plan consisting of milestone dates, key steps, estimates for duration, deliverables and resource requirements.
- Accurately provide all necessary information including key stakeholders, applicable Client environment information and configuration requirements.
- Inform SecureTrust of all Client environment maintenance activity and changes that may impact the Services.
- Accurately respond to requests from SecureTrust teams when establishing contact and collection of required information.
- Provide complete and accurate details of the relevant environment and other business operations information.
- Make available resources capable of participating in consulting activities in relation to Client's environment.

- Participate in and understand materials explained during calls, meetings, interviews, discussions, facilities inspection and controls analysis.
- Client acknowledges:
 - All security and feature updates for SecureTrust Portal software will be included in major version release upgrades.
 - The service consists of remote or onsite consulting.
 - SecureTrust will perform the service in the English language.
 - SecureTrust is not responsible for defining systems in scope or whether information provided by Client is accurate.
 - SecureTrust retains the right to reject or accept Client comments based on the facts and circumstances of the service.
 - SecureTrust will perform the service in the English language.
 - SecureTrust will not offer any legal guidance or counseling.
 - The quality and accuracy of the service is dependent on Client's provision of accurate information and access to Client systems and resources to SecureTrust.
