

## SERVICE DESCRIPTION

# Trustwave Secure Email Gateway (SEG)

---

Trustwave Secure Email Gateway provides email content security through unified threat management, anti-spam, content security, policy enforcement and data loss prevention. It filters incoming and outgoing email at the perimeter and uses deep content inspection to scan all content – even within attachments.

### Key Benefits:

- Provides protection from email-based, blended threats
- Assists customer's compliance efforts with regulations and AUPs
- Highly scalable, flexible and easy-to-manage
